# COMPANY PROFILE.

From community complexes to elite-level training facilities, Dynamic Sports Facilities Australia (DSFA) is a trusted name in high-performance sports courts. With a reputation built on quality, innovation and performance, we build sports facilities designed to last.

---

## WHO WE ARE

DSFA is a leading provider of high-performance commercial sports courts. With over 30 years of expertise, we have designed, constructed and resurfaced over 825,000m<sup>2</sup> of premium sports surfaces across Australia. We specialise in delivering turnkey solutions for councils, governments, schools, sports clubs and private developments, ensuring every project meets the highest standards of durability, safety and playability.

ISO-certified with Occupational Health & Safety & Quality Management, DSFA is committed to quality, compliance and long-term performance. We provide custom sports infrastructure solutions that enhance communities, support athletes and add value to commercial developments.

## WHAT WE DO

**DSFA provides end-to-end sports facility construction**, handling everything from initial planning & design, Geo & Engineering, Civil Works, Concrete & Asphalt, Fencing, Sports Equipment and Retaining Walls.

Our streamlined approach ensures efficiency, precision and long-term performance. We deliver customised sports infrastructure for a wide range of clients, including educational institutions, local governments, sporting organisations and commercial developments. Our expertise extends beyond traditional courts to include multi-sport complexes, high-performance training facilities and specialist courts personalised with club colours or corporate branding.

Whether constructing new courts, resurfacing existing ones or upgrading entire facilities, DSFA works closely with clients to deliver innovative, purpose-built solutions tailored to the unique requirements of the community, government body or organisation. Every project is designed for long lasting quality, superior function and an exceptional playing experience.

# WHY CHOOSE DSFA?

## Industry Leaders in Commercial Sports Facility Construction

With a legacy of excellence spanning over three decades, DSFA is the trusted name in high-performance sports court construction. We don't just build courts – we create premium sports environments designed for durability, safety and long-term performance.

## Experience That Sets Us Apart

For over 30 years, DSFA has partnered with schools, councils, sporting clubs and businesses to deliver thousands of industry-leading sports facilities. From local community courts to large-scale multi-court complexes, we take a tailored approach to every project, ensuring a seamless process from design to construction.

Our expert team, many of whom have been with us over 15 years, brings deep industry knowledge and craftsmanship to every court we build. We use the latest materials, technology and construction methods to deliver premium sports surfaces that meet the highest standards of playability and longevity.

## A TRUE TURNKEY SOLUTION

DSFA provides a fully integrated service, handling everything from initial planning and custom design to engineering, surfacing and equipment installation. We collaborate closely with clients to ensure every project aligns with specific budgets, space requirements and sporting objectives. Whether you need a single basketball court or a purpose-built multi-sports complex, we bring precision, quality and efficiency to every stage of construction.

## THE DSFA DIFFERENCE

- 🏆 **30+ YEARS OF EXPERTISE:**  
Decades of experience delivering elite-level sports courts.
- 🏆 **COMPREHENSIVE SOLUTIONS:**  
End-to-end project management from concept to completion.
- 🏆 **825,000M<sup>2</sup>+ OF SPORTS SURFACES LAID:**  
Proven results across Australia.
- 🏆 **CUSTOM DESIGN & ENGINEERING:**  
Tailored solutions to suit every site and requirement.
- 🏆 **TURNKEY SERVICE:**  
A stress-free experience with everything handled in-house.
- 🏆 **ISO-CERTIFIED & INSURED:**  
Compliance, quality and safety at every stage.

# SERVICES & EXPERTISE

## Custom Sports Court Construction & Resurfacing

DSFA delivers high-performance sports courts built for durability, safety and long-term use. Whether constructing new facilities or refurbishing existing ones, we provide tailored solutions that meet the unique needs of councils, schools and private developers.

---

### We build and refurbish courts for:

- ⚙️ **Councils & Community Spaces:**  
Multi-sport facilities, cricket facilities, parks and active community hubs designed to encourage participation and active lifestyles.
- ⚙️ **Education & Schools:**  
Netball courts, basketball courts, cricket facilities and multi-purpose sports grounds that meet school sports curriculum and competition standards.
- ⚙️ **Private Developments & Commercial Projects:**  
High-end sports amenities for real estate developments, private clients and premium commercial spaces.

# KEY CAPABILITIES

From concept to completion, DSFA offers a full suite of services to ensure every court meets the highest standards of performance and longevity. Our capabilities include:

## Site Planning & Design

We offer comprehensive site assessments, engineered layouts and material selection to optimise court placement, durability and playability. Our tailored designs ensure compliance with sporting regulations and seamless integration into existing facilities.

## Concrete or Asphalt Construction

Our engineered and non-engineered concrete and asphalt bases provide a stable, long-lasting foundation for all sports courts. We ensure proper compaction, drainage and curing techniques to mitigate the chance of cracking and deterioration over time.

## Stabilised Base

Ideal for a non-engineered and cost-effective solution, our stabilised bases offer a high-quality base to deliver a durable, synthetic grass surface. We apply expert compaction and laser grading techniques to enhance longevity and minimise surface wear.

## Acrylic & Synthetic Grass Surfacing

We install premium hard court finishes, cushioned acrylic systems and synthetic grass surfaces tailored to different sports and play preferences. Our coatings provide slip resistance, UV stability and consistent bounce for optimal performance and to meet ITF standards.

## Line Marking & Custom Branding

We provide high-precision multi-sport line marking using durable, long-lasting paint systems. We also offer custom branding options including logos, school or club names, school or club colours and sponsorship branding to enhance visual appeal and identity.

## Fencing, Lighting & Drainage

Our high-quality fencing solutions enhance safety and security, while professional-grade lighting extends playing hours. Integrated drainage systems prevent water buildup, preserving court quality.

## Equipment Supply & Installation

We supply and install premium sports equipment, including basketball towers, tennis nets, netball posts and spectator seating. Our team ensures all equipment is securely fitted and meets both safety and competition standards.

## Ongoing Maintenance & Resurfacing

Regular resurfacing and maintenance extend the life of sports courts, keeping them safe and in peak condition. Our services include deep cleaning, patch repairs, resurfacing and re-coating to maintain top-tier performance.

# OUR PROCESS

Delivering high-performance sports facilities requires precision, expertise and a clear process. Whether a full design and construct development or a construction-only project, DSFA follows a structured, proven approach to ensure on-time, compliant and cost-controlled delivery – from planning through to completion.

## 1. Site Visit & Consultation

We begin with an in-depth site visit to assess the project requirements, existing site conditions and logistical factors. Our team works closely with key stakeholders to understand usage needs, compliance requirements and long-term outcomes, ensuring the solution is tailored to both performance expectations and community needs.

## 2. Initial Scope & Budgetary Quote

Based on the consultation, we develop an initial project scope, outlining key deliverables, material recommendations and indicative pricing. This early-stage quote provides budget clarity and stakeholder alignment, helping avoid scope creep or funding gaps later in the project.

## 3. Custom Design & Engineering (if needed)

For design and construction projects, DSFA undertakes site-specific engineering, geotechnical testing and detailed court designs. This ensures all infrastructure meets performance, safety and durability standards, while optimising the layout and useability. The result is a fit-for-purpose facility that is designed to last and complies with all relevant standards.

## 4. Final Quote & Contract Signing

With the design finalised, we provide a fixed-cost proposal covering all works, deliverables and a clear construction timeline. This removes uncertainty, allows for informed procurement processes, and guarantees that the project will be delivered on time and within the agreed budget.

## 5. Construction Begins

DSFA manages the full construction scope, including site excavation, base preparation, surfacing, fencing, lighting and sports equipment installation. Our team operates under strict quality control protocols to ensure a safe, efficient and professional delivery. This approach minimises delays, reduces risk and maximises on-site productivity.

## 6. Project Completion & Handover

Once construction is complete, we perform a comprehensive site inspection, final detailing and client walkthrough, including maintenance manuals. Every element – from court surfacing to line marking and equipment installation – is checked against our standards. You will receive a fully operational facility that is ready for use and compliant with all relevant codes.

## 7. Ongoing Maintenance Support

Post-completion, we offer tailored maintenance programs to keep your facility in peak condition. From resurfacing and repainting to equipment servicing, our support ensures courts remain safe, compliant and in peak condition long after handover, protecting your investment for years to come.

# KEY PROJECTS & EXPERIENCE

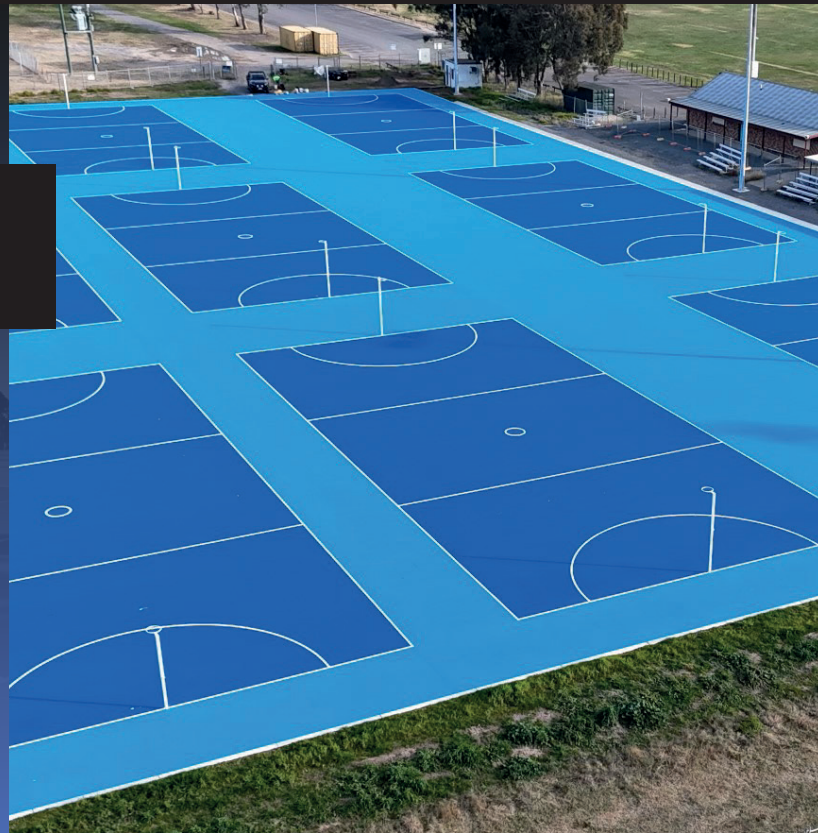

Our track record speaks for itself. DSFA has delivered high-quality sports infrastructure for councils, schools, sporting clubs and commercial developments across NSW and the ACT. From single courts at local schools to multi-sport community facilities, our expertise ensures every project meets the highest standards of durability, performance and long-term value.

## Netball Courts

World-class netball facilities are one of our core strengths. We've delivered high-performance courts for schools, clubs, and councils across NSW and ACT, which are built to competition standards and engineered for maximum durability.

### Carr Confoy Park, Goulburn NSW

DSFA was engaged to surface, line mark and install sports equipment across nine asphalt netball courts (7400m<sup>2</sup>) at Carr Confoy Park. We installed a four-coat PlexiPave Dark Blue play area with light blue surrounds, completed line marking for nine courts and supplied and installed 18 NB320 height-adjustable netball towers. Working with key stakeholders and Goulburn Mulwaree Council, we've created a facility that ensures safe, long-term access.

# Community Spaces

We transform parks and public recreation spaces into active community hubs. Our work in this space includes multi-sport facilities, custom equipment and safe, low-maintenance solutions designed to bring people together.

## Avenel Park, Canley Vale NSW

Our team played a key role in transforming this multi-use community space into a vibrant sports and recreation hub. We surfaced a multi-sports facility including a futsal court and basketball half-court, volleyball court, ball sports wall and permanent outdoor ping pong tables. The result is a dynamic, eye-catching space tailored to the needs of the local community.

## Wallsend Sports Hub, Wallsend NSW

DSFA surfaced a dynamic multi-sports precinct as part of the Wallsend Sports Hub upgrade. Working closely with the City of Newcastle, we surfaced two new basketball/futsal courts using the Mapei TNS surfacing system, as well as a full rebound wall. The upgraded space provides a safe, durable and dynamic space for local residents to practice and play.

# Cricket Clubs

Our cricket projects range from community-level training nets to complex multi-lane installations. We ensure every design delivers safe, durable and high-quality playing surfaces for local clubs, schools and community members alike.

## Jean Todkill Park, Crookwell NSW

In close collaboration with Upper Lachlan Shire Council, DSFA completed a three-lane cricket net installation with quality surfacing and safe run-up areas. Works included excavation and base preparation, new concrete substrate, fencing of the three lanes, including a roof and protective belt, and the installation of a safety screen fence. The lanes were finished with shield synthetic grass for durability and consistent playability.

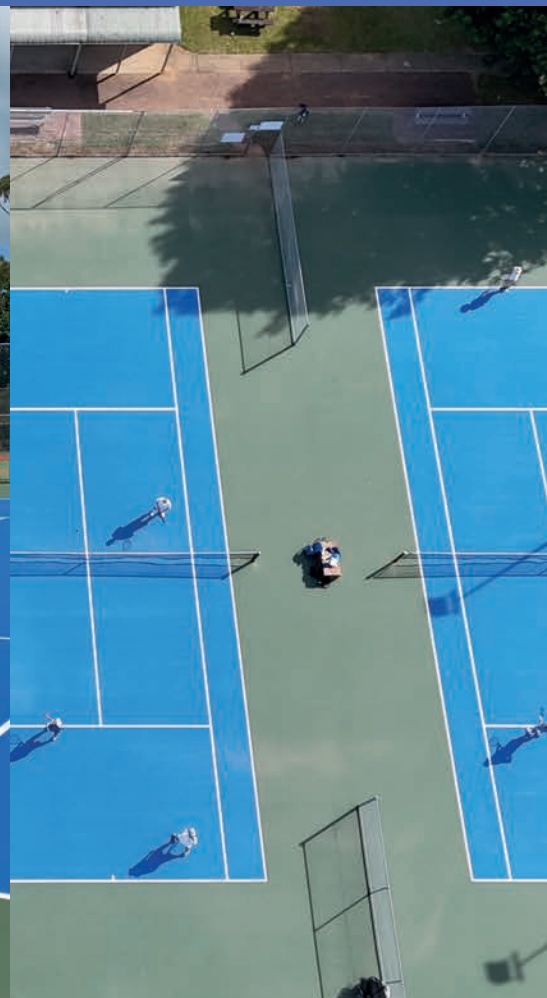

# Tennis Courts

DSFA has extensive experience delivering premium tennis facilities for clubs, schools and communities across NSW and the ACT. From full-court construction to resurfacing, repairs and upgrades, our courts are engineered for consistent performance, long-term resilience and a top-quality playing experience.

## Bowral Tennis Club, Bowral NSW

Our team were engaged to resurface eight tennis courts at Bowral Tennis Club, in collaboration with Wingecarribee Shire Council. Works included replacing existing synthetic grass courts, repairing base works and cracks, and surfacing with the highly durable Plexipave acrylic system. Additional work involved new net post footings, internal winder posts and minor fencing repairs for a professional-grade finish.

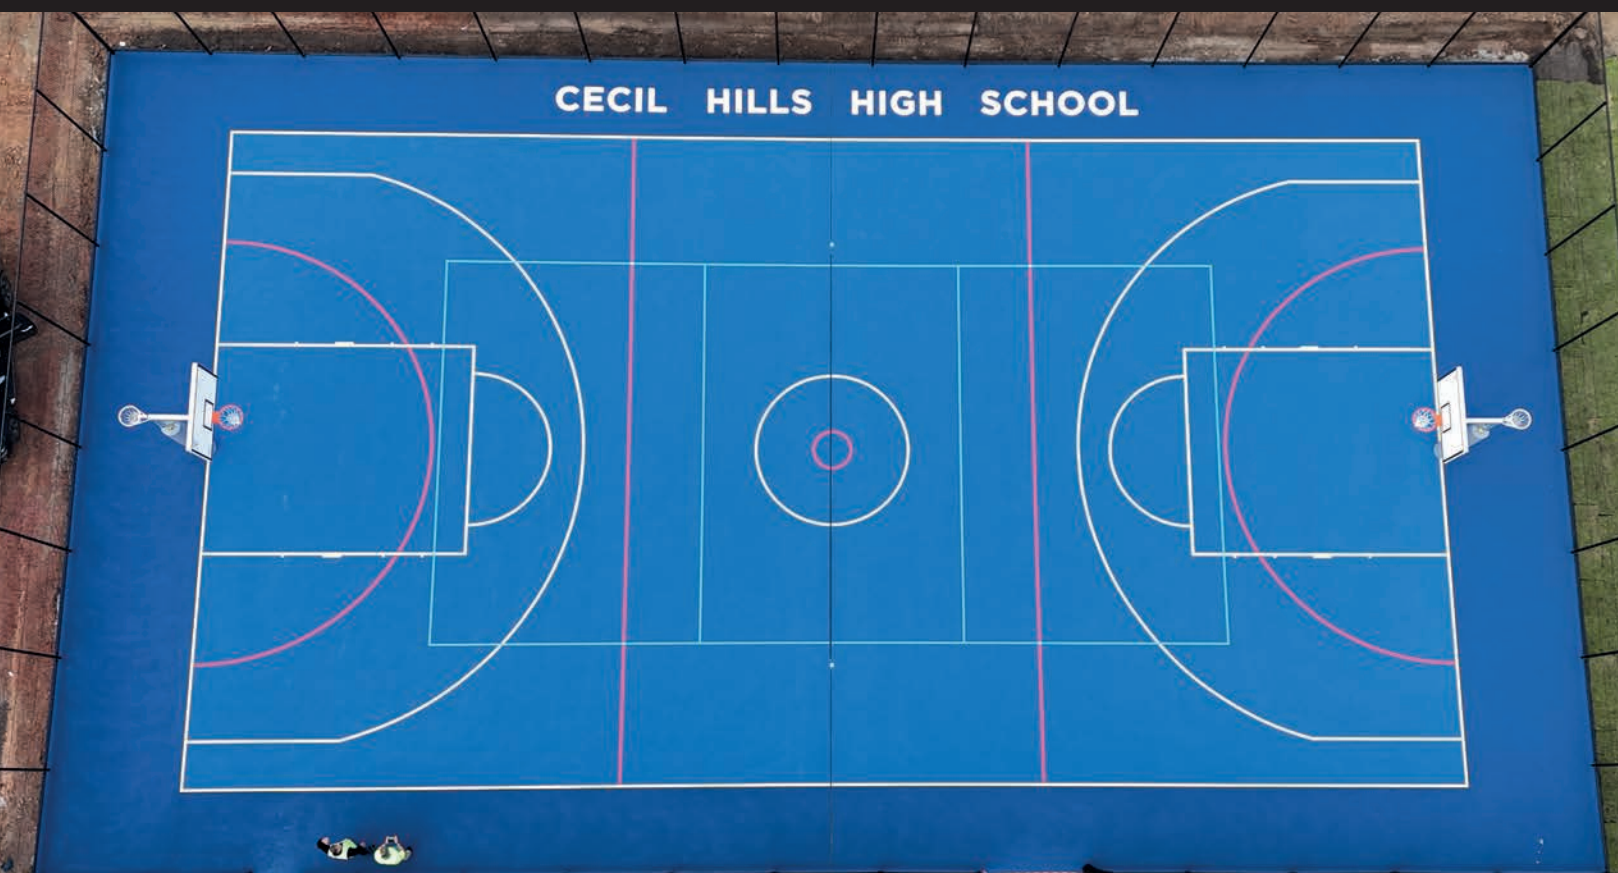

# Multi Courts

Our multi-sport courts are designed to maximise space, functionality and use. From futsal and basketball to volleyball and handball, we deliver high-quality, versatile surfaces tailored to each client. DSFA has delivered dozens of all-in-one facilities for schools, councils and public precincts across NSW and the ACT.

## Cecil Hills High School, Cecil Hills NSW

DSFA transformed the sports facilities at this Sydney high school with a complete upgrade centred on basketball, futsal and pickleball. The project delivered a brand new dual-purpose courts designed to support high-performance play across these fast-paced sports. Works included resurfacing existing asphalt slabs, applying high-grade acrylic coatings, installing sports equipment, and precision multi-sport line marking. The result is a modern, durable and highly versatile space that elevates student participation and strengthens community access to quality courts.

## Kincumber High School, Central Coast NSW

At Kincumber High School, DSFA partnered with the Department of Education to deliver a full resurfacing and installation upgrade of the school's outdoor courts. The project included the application of new acrylic surfacing, precision basketball line marking, and custom school branding—enhancing both the functionality and visual appeal of the space for students and staff.

## Claremont Meadows Public School, Claremont Meadows, NSW

DSFA was engaged to transform an outdated area in the middle of the school into a dynamic sports facility. Existing concrete and pathways were removed and a new concrete substrate was constructed, as well a new pathway. We installed two play areas using Playhard Sports Equipment multisport towers – one basketball court and one netball court with the middle post being multifunctional. The area was finished with acrylic surfacing in two-tone blue and a soft net to protect the connected recreational area.

## Batemans Bay High School, Batemans Bay, NSW

The DSFA team completed a full sports facility overhaul, including resurfaced multi-sports courts, a new basketball court, installation of a basketball quad tower and a custom wall mural. The project not only improved the school's infrastructure but also created a dynamic, engaging environment that enhances student experience and school pride.

# CLIENT TESTIMONIALS

Our clients trust DSFA to deliver high-performance sports facilities that stand the test of time. From schools and councils to commercial developments, our reputation is built on quality, expertise and reliability. Hear from those who have experienced our commitment to excellence firsthand.

## Full Court Construction – Multi Court

"We couldn't be happier with our new basketball and tennis court. DSFA delivered a professional, top-quality facility from start to finish. The workmanship was exceptional, and the attention to detail was excellent. Highly recommend to any school looking for a premium sports court"

– NSW Public School Principal

## Resurfacing – Acrylic Tennis Court

"Our old, worn tennis court has been completely transformed. The resurfacing by DSFA made it look brand new again. We love the colours and they completed the work within schedule despite some weather delays. Outstanding job!"

– NSW Tennis Club

## Annual Maintenance Clean – Multi-Sport Court

"We've used DSFA for our annual court maintenance for the last two years. Their team is always professional and the results speak for themselves. The courts look clean, safe, and play beautifully all year round".

– NSW Public School Facilities Manager

## Full Construct – Outdoor Netball & Basketball Courts

"The communication throughout the entire build process was excellent. We were kept in the loop every step of the way, and the DSFA crew was always approachable and helpful. The finished courts are fantastic and have become the pride of the school."

– NSW Public School Vice Principal

## Resurfacing & Fence Upgrade - Community

"DSFA resurfaced our community courts and replaced the old fencing. The difference is incredible. They were polite and easy to deal with and left the property tidy every day. We've had so many people comment on how amazing the courts look!"

– NSW Council

## Full Construct – Netball & Basketball Court

"We requested a custom sized netball and basketball court and DSFA nailed it. The kids love the reduced size courts and height adjustable basketball and netball towers. Great experience from start to finish."

– NSW Public School Principal

## School Court Resurfacing – Tennis to Multi-Sport

"We had our courts resurfaced with DSFA. They were so helpful every step of the way and we love the custom stencil!. Their advice from the beginning was invaluable, and the finish was amazing."

– NSW Independent High School

## Surfacing & Minor Repairs – Community Courts

"DSFA helped us bring life back to our neglected courts. The service included patch repairs, grinding, cleaning, 4 coats of paint and new line marking. Efficient and friendly team."

– NSW Council

## Full Construct – Court Build with Sports Equipment

"What really impressed us was how DSFA managed the whole project from earthworks, slab, surfacing, fencing, towers, nets – everything. Their coordination and professionalism made the process smooth and stress-free"

– NSW Building Developer

## Full Construct Cricket Nets – Cricket Club

"We just had our old cricket nets replaced with 3 brand new nets by DSFA. We couldn't be happier with the finished project. They were easy to deal from the start right through to completion of the build. Highly Recommended!"

– NSW Cricket Club President

# CERTIFICATIONS & COMPLIANCE

At DSFA, we uphold the highest standards in quality, safety and compliance. Our industry certifications and accreditations ensure every project is delivered with precision, reliability and a commitment to excellence.

## **ISO 9001:2015 – Quality Management**

This certification demonstrates our dedication to maintaining the highest standards of quality across all aspects of our work. Every sports facility we construct is built to last, meeting strict industry benchmarks for quality, durability and performance.

---

## **ISO 45001:2018 – Occupational Health & Safety Management**

Safety is at the core of everything we do. This certification reinforces our commitment to protecting our team, clients and stakeholders by adhering to stringent occupational health and safety protocols. Our proactive approach ensures all projects are completed safely and efficiently.

---

## **Pre-Approved for General Construction Works up to \$1M**

DSFA is pre-approved for construction projects up to \$1 million, offering streamlined procurement and compliance assurance for local governments, education facilities and commercial developers.

---

## **Certified Under SAPIA (Sports & Play Industry Association)**

As a certified SAPIA member, we adhere to best practices in sports court construction and maintenance, reinforcing our leadership in and commitment to the industry.

---

## **Full Insurance Coverage**

We provide comprehensive coverage, including public liability, work cover, contract works and professional indemnity insurance, giving our clients peace of mind on every project.
